

# SHELLY H&T Gen3

Next generation Wi-Fi humidity and temperature smart sensor, featuring an e-paper graphic display, for a seamless climate control in your living space.

*Shelly*

A white, square-shaped smart sensor is shown in the foreground, resting on a dark surface. The sensor's e-paper display shows the time 15:07, a battery level icon, a temperature of 26.0°C, and a humidity of 39%. It also features signal strength and Bluetooth icons. In the background, a blurred kitchen scene with a wooden cutting board and a bowl is visible.

# Next generation H&T smart sensor

The new smart sensor accurately tracks temperature and humidity, both essential for a healthy home environment. Connect it with other Shelly devices for seamless climate automation, ensuring optimal comfort and well-being in your living space.

- No hub required! Easy control through Shelly Smart Control app or various protocols, platforms and voice assistants
- Equipped with the new Shelly chip: 8MB of memory and faster responsiveness
- Matter-upgradable without compromising on functionalities
- Enhanced with a low consuming e-paper display & built-in clock
- Works with type-C USB slot
- Batteries 4 x 1.5 V AA (LR) (batteries not included)
- Low battery consumption (up to 1 year battery life)
- Has an embedded web server and connects to your Wi-Fi network

## Exceptional performance

Discover the power of enhanced memory with Shelly H&T Gen3. Equipped with our Shelly chip, featuring 8MB of memory, it doubles the efficiency and responsiveness. The leap in memory capacity prepares Gen3 devices for upcoming features, provides smoother operation and quicker responses, ensuring your environment is monitored with unparalleled precision and ease.

Shelly H&T Gen3 is not just smart — it is future-ready! We've ensured that this Gen3 device is fully Matter-upgradable, without compromising on functionality. Thanks to its doubled memory, upgrading to Matter compatibility will be seamless, maintaining all current features while opening doors to new integrations and possibilities in your smart home.

# Ultimate environment monitor

Ensure the perfect sleeping environment for your baby by monitoring the nursery's temperature and humidity. Set alerts to maintain ideal conditions for a safe and comfortable sleep.

*Shelly*

# Heating made easy!

Effortlessly transform your old heater into a smart one. By simply connecting your heater to a Shelly Plug, and then linking it with the Shelly H&T Gen3, you can create a scene that activates the heater just before the temperature drops. This smart automation ensures your home is always comfortably warm and efficient.

*Shelly*

A black, square-shaped smart sensor with rounded corners sits on a dark, speckled bathroom countertop. The device's monochrome LCD screen shows the time '15:07' at the top, a battery level icon, a large temperature reading '26.0°C' in the center, and a signal strength icon, a Bluetooth symbol, and a humidity reading '39%' at the bottom. In the background, a white ceramic sink and a chrome faucet are softly blurred, creating a sense of depth. The lighting is warm and ambient, typical of an indoor bathroom environment.

## Intelligent humidity control

Maintain a healthy environment in your bathroom with Shelly H&T Gen3. By integrating the sensor with Shelly Plus 1 wired to your bathroom fan, you can automate humidity control with ease. Set a scene where, upon detecting high humidity levels, Shelly Plus 1 activates the fan, effectively reducing moisture. This adds a touch of convenience to your daily routine, ensuring your bathroom remains comfortable and dry, automatically.

# KEY FEATURES

## Wi-Fi operated

Connect Shelly H&T Gen3 directly to your Wi-Fi network. **No HUB required!**

## Bluetooth connectivity

Quick inclusion via Bluetooth or use it as a Bluetooth gateway

## Long battery life

Over 1 year of battery life and a USB type-C slot for continuous power

## Measures humidity

Monitor changes in humidity levels to avoid dryness and mold growth

## Measures temperature

Be aware of temperature fluctuations and maintain comfortable conditions

## Free data history

Features up to 1 year of free data storage for analysis and statistics

# TECHNICAL SPECIFICATIONS

**Dimensions (HxWxD):**

- without stand: 70x70x26 mm / 2.76x2.76x1.02 in
- with stand: 70x70x45 mm / 2.76x2.76x1.77 in

**Ambient temperature:** 0°C to 40°C / 32°F to 104°F

**Humidity:** 30% to 70% RH

**Power supply:**

- Batteries: 4 AA (LR6) 1.5 V (batteries not included)
- USB power supply: Type-C (cable not included)

**Estimated battery life:** Up to 12 months

**Electrical consumption:**

- Sleep mode  $\leq 32\mu\text{A}$
- Setup mode  $\leq 76\text{mA}$

**RF band:** 2400 - 2495 MHz

**Max. RF power:** < 20 dBm

**Wi-Fi protocol:** 802.11 b/g/n

**Wi-Fi operational range** (depending on local conditions):

- up to 50m / 160 ft outdoors
- up to 30m / 100 ft indoors

**Bluetooth protocol:** 4.2

**Bluetooth operational range** (depending on local conditions):

- up to 30m / 100 ft outdoors
- up to 10m / 33 ft indoors

**CPU:** ESP-Shelly-C38F

**Flash:** 8MB

**Webhooks** (URL actions): 10 with 2 URLs per hook

**MQTT:** Yes

**REST API:** Yes

The Shelly logo is rendered in a white, elegant script font. The word "Shelly" is written in a cursive style, with the 'S' being particularly large and flowing. A registered trademark symbol (®) is positioned at the top right of the logo. The logo is centered within a light blue rectangular area that has a subtle gradient, which itself is centered on a solid blue background.
